

This week in class we will be working on the following objectives.

### In English:

We are reading the story of The Gruffalo by Julia Donaldson. We will use describing words to write a description of a character from the story. Here are some ideas for the mouse...

- small
- brown
- clever

Choose a character and have a go at your own character description.

### Year 2

When you write your description think about openers and using conjunctions to add extra information. Here are some conjunctions you could use...

- and
- because
- so

### Science - Materials

This week we are talking about recycling materials.

What materials can be recycled in the blue bin?

Are there any other materials that can be recycled?

Why is it good to recycle?

### In Maths

We have been working on fact families and finding links between numbers. For example 7 3 10

What do we already know?

If we know that  $7+3=10$  then we also know  $10-3=7$ .

Can you write number sentences for the following fact families..

9 1 10                      6 7 1  
3 2 5                         4 5 9

Keep practising your counting. Start from any number and count forwards and backwards from that number.

### Year 2

We are finding 10 more and 10 less.

Using concrete materials, complete the missing boxes.

10 less	Number	10 more
		
2	12	22
		
	37	

15

### PE

Can you dodge?

Re-visit the skills from previous session and practise how to dodge. Move from one foot to the other. Dodge around obstacles in the garden or play tag with someone in your family.

Jumping

Re-visit different types of jumping.

Jump from two feet and land on two feet (2 to 2)

Repeat with two feet to one foot (2 to 1)
